

The Minor in Design has 4 core requirements (Des 200*, 356, 370 and 300) that are required of all students in Design. Each degree then has Program-Specific pathways for Design Minors

The 20-Unit Industrial Design Pathway includes DES 320, DES 321, DES 305 and DES 310, for a total of 20 units. We recommend students take the prerequisite classes (200*, 356, and 370) first, and then take 300, 320, 321, 305 and 310 when they've met the prerequisites. Note that 320 and 321 are prerequisites for DES 310. DES 305 is a prerequisite, but can be taken concurrently with DES 310.

The 19-Unit Visual Communication Design Pathway includes DES 322, DES 325 and DES 327, for a total of 19 units. We recommend students take the prerequisite classes (200*, 356, 370 and 322) first, and then take 300, 325 and 327 when they've met the prerequisites

Minor Pathways			
VisCom		Industrial	
370 Introduction to Design	1	370 Introduction to Design	1
356 History of Design and Technology	3	356 History of Design and Technology	3
200* Visual Design Literacy	3	200* Visual Design Literacy	3
300 Design Process	3	300 Design Process	3
322 Computer Graphics Imaging	3		
		305 Lab Safety Basics	1
		320 Drafting and Sketching for Design	3
		321 Technical Drawing 1	3
		310 Product Design 1	3
325 Graphic Design 1	3		
327 Interactive Design 1	3
